

Set to Go Off in 2008!

An Introduction to
Apocalypse Prophesied, From Eden to the New Jerusalem
and
Mystery of Tammuz 17, Ancient Hebrew keys to dating the Apocalypse
by Herbert R. Stollorz
with Christopher J. Patton

A biblical Rosetta Stone discovery has unlocked ancient Bible
prophecies sealed for 2,000 years!

*Why will there be an Apocalypse?
Will New York City be destroyed early in 2009 by?
Will a Temple will be rebuilt in Jerusalem only to be destroyed?*

***My two books present God's message of hope to humanity and
Israel. They also present a warning to all who reject that
message!***

The blue cover to this booklet resembles closely a green and a red cover to two books of over 500 pages each – perhaps located somewhere else in the bookstore. From my years in business, I know that time is precious and that most people are looking for a quick read rather than a monster dissertation.

While my books do have a fair number of pages, they are not like anything else you have ever read, so I wrote this blue booklet to tell you briefly why you should consider reading my green and red books. By the way, I am not just trying to sell more books. You can read and print them both for free from the Internet at www.apocalypse2008-2015.com. Besides, if you compare the price of my books with that of other books, you will notice that my 1,000+ pages are a bargain.

These facts might raise the question of why am I do this? Alternatively, why would anyone squander his retirement on two books translated into four languages¹? Yes, I am in my mid-70s, and I do need to watch my savings. But, it is more important to me to share my discoveries with you because I believe that God led me to make them in the first place. I believe that the lives of millions are at stake – especially for those who live anywhere near New York City!

¹ English, German, Spanish & Arabic.

Please understand. I have discovered a vital prophetic message in the pages of the Bible. I have not had any visions or heard any voices. I am not a theologian or a prophet. I have spent my professional life as a down-to-earth applied scientist who has invented a number of hi-tech devices and instruments. Believe me, I did not rush into writing about Bible prophecy. English is not even my native language!

Of course, a number of theologians have responded to what I have written. Some reacted with anger, some with irritation, and a few have been more positive about the fresh perspectives I have brought to understanding the whole Bible. Yes, you must have a context in which to place the prophecies. They make no sense outside of the context of what has gone before. That is why the first book places the 7 years of the Apocalypse within the context of God's 7,000-year plan for humanity. My second book focuses on the 7-years of the Apocalypse, and I describe the methods I used to come up with a significant number (No, not just one.) of very specific dates.

Only time will convincingly demonstrate whether these books reveal the discovery of the century or not. Meanwhile, a few highly educated and successful people have referred to my books as, "a breath of fresh air." An Arabic scholar of the highest degree stated to me "it is the best ever to come out of the West." So that's why I spent the time and money to translate and publish my books for you to read.

How is it possible to Date the Apocalypse?

How is it possible to determine the future dates of the soon-coming Apocalypse or Great Tribulation? Can a person take this kind of Bible research seriously?

Why would a successful entrepreneur risk his reputation and squander his retirement savings to tell you about his discovery of specific dates to future events of Bible prophecy?

Because he wants you to read the evidence for yourself! We all must answer for ourselves before God, and you deserve the opportunity to evaluate this research for yourself.

I, Herbert Stollorz, have not lost my sanity. What happened was that I accidentally discovered an obscure book (written in German) about a mathematical code embedded in the ancient Hebrew language.² With this key information, I embarked upon a systematic study of the Bible employing the same scientific methods that I have used for years in business. Over the decades of my professional work I have repeatedly

² Die Symbolik der Bibelsprache, Friedrich Weinreb. Origo Verlag, Zurich 1996

used this methodology to solve many intricate problems – often by inventing new high-tech products.

Although I started almost four years ago, my books are a natural sequel to a TV show I saw aired several times on the Discovery Channel in 2004-2005. The experts interviewed on this program used a computer to discover prophetic messages in the Hebrew Torah including the names and dates of important people. When the computer was projected forward in time, it came up with one date, **2012**, and no reference of why it was important.

My discoveries of what I call the Bible's "Rosetta Stone" have revealed not only the year 2012, but many dates, specific days, in that year and around it. Furthermore, these dates are linked with both famous and previously unknown prophecies buried within the text of your own Bible – principally in the books of Daniel and Revelation. Of course, there are many other Old Testament scriptures, which also come into consideration, as well as a number of other New Testament ones, too. I put them down in writing so that you can check them out yourself. No academic degree in theology is needed!

Some of the more important dates I discovered are:

- The Apocalypse is scheduled to start on **21 December 2008**.
- Eleven prophetic timelines mentioned in the biblical books of Daniel and Revelation will begin on **4 January 2012**.
- The over 5,000-year old Aztec calendar predicts the end of the world on **21 December 2012**, a date that coincides with the resurrection of Antichrist at the climax of the Apocalypse.
- A merciful God will end the coming 7 years of trial and terror with a final purging of evil by a massive, earth shattering 13-day long earthquake that ends by **17 September 2015**.
- The 7 years of Great Tribulation often called the Apocalypse will officially expire on **21 December 2015**.

I am not a prophet. I am not a minister or religious professional. I am a self-taught engineer and scientist who is forever seeing new ways to make things work better. I am an inventor of high-tech devices like the disk drives in your computer or subassemblies for atomic particle accelerators. I never thought I would write a book about the Apocalypse.

The biblical insights I write about are the result of my study and unique perspectives as a German-educated instrument technician. Not only do I have a number of valuable inventions to my name and 20 years of experience as the president of my own hi-tech company, I

have also learned something about gears of a cuckoo clock. Looking into the World Cuckoo Clock's gear system, pictured on the inside cover of this booklet, I can calculate the dates for biblically prophesied events that will take place during the Apocalypse.

Hebrew Alphabet Number System

As I studied the Bible and the extra-biblical sources that corroborated its prophecies, I became convinced beyond a doubt that we live in an orderly universe designed by a brilliant Creator. This Creator has provided abundant evidence to prove that He exists and to warn us of His coming judgment of human governments.

I discovered the **Hebrew Alphabet Number System** or **HANS** for short by reading an old Jewish book about the ancient Hebrew language. It changed my ideas about the future of humanity as well as about how the universe operates and why. As a high-tech guru familiar with many modern technologies, I had worked all my life for multi-billion dollar companies. When I made these discoveries, it was past time for me to retire.

I learned that God's plan started before humanity began. So did evil. The Hebrew Alphabet Number System organizes human history into two, parallel rails of chronological ages: The heavenly perspective of the *Heh* Dimension and the *Daleth* Dimension of our material experience in history. These ages appear in my books and tables as follows:

- **Waw** is the sixth (6) age of eternity past. It connects our dimension of time and space with what was before.
- **Zayin** is the seventh (7) age equated to the past 6,000 years of human history filled with the sword of strife and warfare.
- **Cheth** is the eighth (8) age of the 7-year Great Tribulation or Apocalypse, which is the gate or burning tunnel from the *Zayin* Age of Satan's Domain to the new beginning of the *Teth* Age of God's Kingdom in this material dimension on earth.
- **Teth** is the ninth (9) age of new life. It is the baby born from the mother's nine months of pregnancy. Within a mother's womb are two vibrant, interwoven and interdependent organisms growing side by side: the fetus and the placenta. In this analogy the fetus is the developing Kingdom of God. The placenta represents the dominion of Satan or the evil present in this world. During gestation of humanity's first 6,000 years of history, they are hidden from sight, but the evidence of both can be traced through history and is all around us today. The baby and the

placenta are destined to break forth and be separated at birth, which is the purpose for the Apocalypse.

- **Jod** (*Yod*) is the tenth (10) age of what the last chapters of Revelation call the New Heavens and New Earth. Our material dimension of time and space ceases to exist as all that is good inherits the eternity future of God's everlasting Kingdom.

I next applied HANS to the book of Daniel and uncovered a prophetic mystery hidden for thousands of years. The Hebrew Alphabet Number System is not complicated. It is not mysterious or mystical. Anyone can use this handy tool to understand the literal statements of Scripture better. It works like a matrix or template that reveals related connections, spiritual or material dimensional perspective, chronological order and/or contextual order of importance. Among other things, it has an encoded chronological system rooted within text-concepts and the Jewish calendar's feast and fast days. In analyzing these relationships, the dates of important future events began to appear in repeated patterns. Some dates figured into interlocking sets of chronological patterns that I have called "gears."

One of the most important of those dates is **21 December 2012**. This same date appears regularly in the results of other researchers, too. What most surprised me about this date is that it figures prominently in the Aztec, Chinese and Jewish calendars. All three of these calendars are over 5,000 years old. Furthermore, thousands of miles separate them geographically. Culturally, they are miles apart, too.

HANS is worth learning about. This obviously synchronized autonomy testifies to the importance of 21 December 2012, which is the end of the world in the Aztec Calendar and the climax of the biblical Apocalypse described in such detail by the books of Revelation and Daniel. This "coincidence" is scary! It motivated me to reorganize my life's priorities, and I hope it will do the same for you.

The validity of my discoveries will become obvious as 2009 rolls along. My books with either be in very high demand and difficult to come by, or obsolete. I very much doubt the latter because in applying my scientific methodology to technical problems, I solved many of them with assemblies that became new patents worth millions. I believe that the laws of science can work in answering biblical questions, too.

The Judeo-Christian Railroad Track

I compare God's revealed plan for humanity to a train on a railroad track. The chronological timing gears of the World Cuckoo Clock move the train down the historical-prophetic track of time progressing from

station to station. I liken the 13th station of the Apocalypse to a fiery tunnel that we all will need to pass through in order to get to the promised land of the millennial *Teth* Age of peace and justice.

You will want to read about these 14 stations in my books. They represent major events or occasions when our earthly dimension touched the heavenly one with some observable consequence. This table gives you the station references for each of these ages.

The Apocalypse is Jewish and contains prophecies mostly pertain to them, but my prophetic railroad system has two rails. One rail represents the Hebrew Scripture and Jewish traditions, and the other rail is the New Testament foundation of Christian faith. The train cannot run on one rail alone. Both are independent but parallel perspectives by the same author.

The 14 Railroad Stations								
1	2	3	4 - 12			13	14	HEH
4004 BC		2288 BC	588 BC	AD 33		2012	2018 - 3018	
6 WAW Age		7 ZAYIN Age				8 CHETH Age	9 TETH Age	JOD Age

In my books I attempt to answer the three Ws about the Apocalypse - **why**, **what** and **when**. By applying the scriptural railroad analogy to the Apocalypse, I found that the Hebrew side of the Bible answers the "**when**" - meaning the timing of the Apocalypse. The Christian side describes "**what**" will happen. It takes both sides of the track to get anywhere in understanding the "**why**" because that deals with who God is, His relationship with humanity and the role of the Apocalypse in His righteous but merciful plan of redemption.

It makes sense that God could reveal something to one side and then present it a little differently to the other. If we want to get the benefit of what God reveals - the full knowledge of God, then we should be smart enough to study both of them. What is even more convincing is that it works, and it is the only way to graduate from a "monorail theology" to a well-rounded perspective what the Bible really teaches.

I would like to encourage my fellow Christians and Jews to study both "rails" of God's plan. Do not just blindly accept what your educated establishment tells you about these matters. Fortunately, one does not

need become Jewish in order to understand what God has laid out in the Old Testament; neither does one need to join a particular church to follow Jesus as described in the New Testament.

Rosetta Stone?

Now I want to briefly mention the most important discovery of my two books: the Bible's **Rosetta Stone**. Here I can only introduce what took many pages to explain in my books. Three years ago, I had no knowledge of Jewish culture except what I understood from the Old Testament. When I accidentally came across an old Jewish book about the Hebrew alphabet and language, my curiosity led me from page to page. Reading that book motivated me to write about what I learned.

This reading resulted in my discovery that the major Jewish feast and fast days contain the keys to unlocking the mathematical relationships embedded in God's 7,000-year plan for human history and prophecy. These relationships are analogous to the clock gears found inside a cuckoo clock. These chronological gears are symmetrically designed to interface precisely in a manner that marks the appearance in human history/prophecy of important events planned by God from the dawn of creation.

I compare it to a **Russian Egg** of nested babushka dolls. You have seen them: you lift the top off a wooden doll and find inside it four more eggs that are similar. Each one is identical to the other but on smaller scale as necessitated by their nested design. By using familiar examples like this, you will quickly gain insights into very difficult Bible verses. This principle exposes weaknesses and irregularities in a number of traditional Christian beliefs about prophecy and God's plan for humanity.

What emerged from my research was a comparative analysis of symmetrical event patterns in history and prophecy within chronological units of different lengths. Just as the smaller Russian Egg dolls are held within the larger one, so the 7,000 years of God's plan for humanity contains the smaller "eggs" of the 7-year Apocalypse, the last 7 months of the Apocalypse and its last month, which is the 7th month of the Jewish calendar, *Tishri*. I discovered that the patterns of existing human history and fulfilled prophecy could be used to date primary events of the 7-year Apocalypse. My second book, *Mystery of Tammuz 17*, explains my research methods, including how I confirmed or crosschecked my results.

Cuckoo Clock Comparison to Cycles

To try to explain how time works in our material universe, I used the familiar example of a cuckoo clock. (Oh yes, I have indeed heard about the derogatory use of cuckoo to describe mental acuity!) Over fifty years ago, I began my working career as an instrument maker in Germany. Making cuckoo clocks was part of my trade. The inner workings of a clock taught me the fundamentals of how gears relate to each other.

The “cuckoos” of the World Cuckoo Clock are the points in time where historical-prophetic event patterns overlay each other. The Russian Egg event patterns of these different periods of time fall into alignment just as the World Cuckoo Clock’s gears of different sizes mesh precisely to move the hands of the clock dial and bring out the little cuckoo bird at predetermined points in time. I know that you have never heard these analogies ever used by any Bible teacher!

Throughout my life experiences, I have been able to use the lessons I learned from working on cuckoo clocks to solve other kinds of technical problems. I discovered that Bible’s historical and prophetic cycles also work like the gears of a clock. I used this insight together with the Hebrew Alphabet Number System to create a matrix or template of event patterns in Bible history and fulfilled prophecy. When I overlaid this template with the 12 Jewish feast and fast days of their annual calendar, I was shocked to see these same patterns extend into the future as concealed data hidden the Scripture became demonstrably predictable.

You can read about the **World Cuckoo Clock** in Chapter 10 of *Apocalypse Prophesied*. My Internet site also has a **Readers’ Forum** where I answer some of the questions readers’ have sent me about my research. Many of those who have responded online seem to be well educated. I guarantee this feature on the web will broaden your understanding, too.

Reference to the Rainbow and Spectral Lines

As an inventor/engineer of many hi-tech gadgets, I was often forced to express complex scientific principles to my associates who controlled the money. They were not educated in science, but they obviously needed to understand the science behind my good ideas if they were to invest any money. Therefore, I learned to use simple analogies to explain my inventions or technical solutions to problems in the same way that I use them in my books to explain the Bible in a way that everybody can understand. In my books I share how my new

analytical tools can be used with common, everyday life examples to interpret difficult Bible verses.

For example, the natural rainbow has 7 main colors that everyone can easily see. Of course, the colors gradually blend into each other. Even more interesting to me as a scientist is how the electromagnetic signature patterns of spectral lines for all of the natural elements are embedded in that same rainbow. It is not possible to see those lines without special equipment like a spectrograph.

The unseen, spectral line signatures of the elements buried within that rainbow light spectrum can be compared to the new biblical insights discussed in my books. It makes reading the Bible much more interesting and understandable, especially in regards to prophecy. My research methods expose the position in time of future Bible prophecies as the spectrograph exposes spectral line patterns in the rainbow, but in my books I do things like compare the cycles in the 7000-year/7-year blocks of human history and prophecy as set against the proper background of ancient Hebrew culture.

Now you might have a better grasp of what makes my books different from anything you have ever read about the Bible before. I truly believe you will find them full of interesting information about Rosetta stones, butterflies, railroad tracks, Russian eggs of babushka dolls, cuckoo clocks and even two cups of coffee.

Certainly, my books are not the first to try to describe the 7 years of the Apocalypse in detail. Hundreds of Christian authors have done so in the past, but they did not have a rediscovered HANS to crosscheck their conclusions for proper contextual interpretation of the original Hebrew meanings.

Other cultures – TV computer –my historic background

My discoveries about the Bible, the Hebrew language and calendar find confirmation from other cultures. The Aztec and Chinese calendars show similar patterns and some of their dates seem to coincide with the event predictions I discovered in my analysis of the scriptures. In particular, these various cultures agree on the importance of 21 December 2012. This was the date aired on the Discovery Channel's program about a computer search for hidden Hebrew codes that originally got me started.

I had been successful to the point of owning my own multi-million dollar company for 20 years during the heydays of Silicon Valley. I decided to investigate this unexplainable phenomena further by using the same techniques that worked for me as a scientist and inventor of

many advanced hi-tech products. That is why you get your money's worth in my books. You will learn something about the Bible in a totally new way not biased by any denominational doctrine because I do not use theology but scientific principles and analogies to try to explain the seemingly inexplicable.

Since most people in the world never read the Bible and are not familiar with its contents, I felt compelled to outline the 7,000-year plan of God for humanity as laid out in history and prophecy in my first book, **Apocalypse Prophesied**. In it, I use many Bible verses to explain God's purpose and why He created humans. It is like a mini-Bible with a thousand Bible verses lined up like pearls in a bracelet with each one in its proper historical and cultural order.

My books clear away some false opinions and misconceptions about the Bible that have made their way into a number of inaccurate religious doctrines. My first book focuses on **why** we are here on this planet, **why** there is evil, injustice, pain and death, and **why** God must soon intervene in the material dimension of our earthly affairs with an almost 7-year long series of cataclysmic events popularly known as the Apocalypse.

My second book, **Mystery of Tammuz 17**, focuses on the **where** and **what** will happen during the Apocalypse. I show how I have arrived at many dates for the major events of Bible prophecy and discuss their relevant place in God's plan.

Jesus said that the coming Apocalypse will be "as it was in Noah's day," which ended the first human civilization in 2288 BC³. Do you know what that means? Find out and become prepared before it is too late. You do not have to be religious to understand my books, because as a scientist, I use simple analogies (many from nature) that everybody understands. I do not quote any theologian or important people to gain credibility. What I have discovered stands on its own.

Once I discovered what I call the Hebrew Alphabet Number System, I could not set it aside until I figured out how it worked. The basic relationships between the Hebrew letters are not complicated or mysterious. It is nothing like the Kabala so that even a child can understand it.

The Hebrew Alphabet Number System makes it easier to understand the Bible. It functions as a template that reveals symmetrical patterns in Bible verses about God's plan for humanity including prophecies yet to be fulfilled – both the troubling and the good ones. This approach

³ Wall Chart of History by Professor Edward Hull M.A., L.L.D., F.R.S, Barnes & Noble Publishing Inc. Princess House, 50 Eastcastle, St. London Win 7AP, England 1995

provides new insights by cross-referencing verses from new but rational perspectives. The net effect builds confidence in the Bible because it retains the integrity of Scripture even as it cuts through the here-a-little-there-a-little structure of biblical revelation. Furthermore, the usefulness of the Hebrew Number Alphabet System is not dependant on any specific prophetic conclusions I present in my books.

Confusion about what the Bible teaches has created a surplus of denominational dogmas. Some of them have resulted in the horrible persecution of decent people throughout history's bloody pages – including the ghastly and indiscriminate persecution of the Jewish people due to ignorance of their customs and the rejection of the knowledge preserved in the ancient Hebrew text.

Remember, before the invention of the printing press Bible students depended on the scribes' accuracy in copying the texts for succeeding generations. The Hebrews had a system that would document any errors made by their scribes, so we can accept the ancient Hebrew text with academic confidence. In addition, many Bible verses have been confirmed by archaeology.

If you are a serious Christian, I invite you to set aside some of your educated assumptions and learn a little bit about how the Hebrew mindset works as well as the Jewish cultural context of both the New and Old Testaments. It will not hurt you to become informed.

Usually, if you tell a Christian that you think you have determined the dates for the Apocalypse, they immediately react negatively and turn off their hearing. Out of irrational habit, they instantly react without considering your statements by quoting the first verse they can remember about end time prophecies, "No one knows the time." Actually, they remember it wrongly as the text says, "But of that day or hour no one knows..." (Matthew 24:36) Its context is also misunderstood, and I discuss that later.

Why You Should Read These Books

Thousands of years ago, the Bible foretold our present era of globalized trade and international finance. It predicted today's economic and political movement towards a world government that embraces a broadly appealing religious philosophy of unrighteous "love" as defined by humans instead of by God. To me, the Bible indicates that the uncertain nature of the western world's economic future and even of America's social cohesion as a nation is only going to intensify. The political and military dominance of the United States

on the world stage will be increasingly stretched thin until it breaks – seemingly without warning.

Apocalypse Prophesied and **Mystery of Tammuz 17** will help you to understand what is taking place right now in the world around us. That understanding could reduce how much you might suffer during the next ten years. The choices you make from this moment forward could even determine how you will spend eternity!

Spiritual truth is not easily discerned. The Bible plainly teaches that what seems right and rational to materially focused humans is often the wrong choice. (Proverbs 14:12) Willful ignorance can result in disastrous despair and painful consequences. Only the Bible can guide us through the quagmire maze of what will take place in the years just ahead.

The Apocalypse will begin on December 21, 2008. That day may pass uneventfully, but at or near its start, America will suffer a severe blow to its operational infrastructure. All of the West will shudder from a near collapse of civilization as we know it. I believe that New York City, and some other major cities, will be destroyed – probably by some kind of nuclear device. I base that conclusion on a number of news and science magazine articles published since the World Trade Center terrorist attacks in 2001. To me, the facts compare well with the destruction of the Great City in Revelation 18.

I expect the US government will react violently. The initial set of disasters and related consequences will cause a huge international crisis threatening worldwide economic collapse and political chaos. Out of this social and political confusion a strong leader will appear from somewhere out of the cradle of western culture historically known as the Roman Empire. This man will be extremely popular with the masses, and his proposed programs will make a lot of sense to most people.

Because of the severe emergencies facing the civilized world, his plan for unified social and religious tolerance enforced by a global government for the good of the people will capture the imagination and trust of most nations. His comprehensive agenda will give hope to millions that peace and prosperity are still possible. The leaders and masses will call on him to lead a desperate western alliance into a new world order that promises great benefits to all nations that participate in a revived global economy founded on world trade.

In the midst of these dramatic events lies the spiritual challenge that will face each of us alive then. This charismatic statesman will offer hope and a return to economic stability with full employment.

Supporting him will seem like the right thing to do to most people. But he is Antichrist, and his plans will lead to the almost total destruction of life on this planet. Towards the middle of these 7 years, military resistance to this great leader's program will begin arise in various parts of the world, principally in the Middle East. A little later, East Asia will mobilize their armed forces against Europe as other politicians seek to extend their own dominions.

Their boldness may be due to the assassination or dramatic death of Antichrist on 18 December 2018; however, on **21 December 2012** he will be resurrected after 3 days of lying dead before the eyes of the entire world. This solstice date marks the climax of the Apocalypse. In my second book I explain how Satan will make it appear that this beloved political leader has come back to life from the dead. Yes, it will be a trick of the devil, and I give the reasons why it will happen. After this dramatic event the tempo of prophetic fulfillment accelerates towards the Bible's most famous battle – Armageddon!

Throughout history, the devil has deceived us with lying truths and spiritual powers that manipulate mortals to do his dirty work of oppressive destruction. This rebellious angel is the ultimate enemy of humanity, and God is going to put an end to this rebel's deceitful powers. All demons will be destroyed, and Satan will be locked up in isolation for 1,000 years.

During the 7 years of the Apocalypse, the earth will be struck by an increasing crescendo of natural and supernatural disasters interspersed with almost constant regional strife from wars and desperate struggles for survival. Famines, plagues, droughts, asteroids and earthquakes will rock the earth to the point of total destruction. The Bible reveals that the Creator God will intervene directly in order to save humanity from ourselves and from Satan so that a remnant of people are preserved alive along with a remnant of the earth's natural biological resources.

You see, what will happen on earth is just one part of a great cosmic battle that rages in the heavens. In fact, the Apocalypse begins and ends in the heavens before it does on earth. Satan wants to destroy what God had once made so beautifully perfect, but he will fail. Those of us who survive shall inherit a true new age of blessings and justice. Will you be among the survivors? Read my books to learn how to avoid the four death angels of Revelation.

The Bible and Science

I have worked on the forefront of advanced technology all my life. From my youth, despite some times of doubt and discouragement, I

have believed in an eternal God who is very interested in His creation. This perspective may seem to be a paradox to most of my readers - especially in Europe and America where science and religion are believed to separate like oil and water. This perception is a false illusion. The public do not realize that many great scientists were (are) also religious.

For example, I was saddened, but not surprised, when I learned how not even Albert Einstein could keep Sir Isaac Newton's extensive written research about God and Bible prophecy from being hidden away from public awareness. The scientific establishment was too embarrassed for him. I am sure that many would have preferred for Newton's biblical research to be destroyed, but it does exist, even though it is seemingly buried away in some "basement" of The Hebrew University in Jerusalem.

Sir Isaac Newton wrote over a million words on Bible prophecy and his Christian faith including a statement that the Apocalypse would take place in the 21st century. This story has helped me "to stay the course" and publish my own books in four languages - despite the costs and complexities involved in this undertaking. I believe God wants it available for you to read.

When you will become acquainted with my books, then you will understand how God must save this planet from what would otherwise be a certain future of man-made destruction. God plans a restoration of His creation. He is not going to start over from scratch this time - not yet, so something must survive to continue on into succeeding next generations.

Most scientists are burdened by a legal system of lawyers, funding requirements and the atheistically biased secular materialist culture of the modern university. It is like trying to think with only one side of our brains. The materialist consciousness is permitted, but the spiritual is denied and avoided. Now I agree that there are many fake religions on this planet, but that does not mean true spiritual revelation does not exist.

Observing the American education system, I wonder at how the institutional hierarchy has felt imperiled enough by the possibility of divine creation to mobilized hundreds of lawyers to enforce an evolutionary theory they cannot prove according to the scientific method. Why is open discussion of how scientific discoveries confirm, as well as perhaps challenge, an academic comprehension of the Bible so threatening?

I believe that the reason lies in the fact that the Bible is the only holy book that covers both the spiritual and material dimensions with authority. It is also the oldest book in the world. In this book of books God predicts the future because He has the omnipotent power to make His prophecies come to pass. The Bible prophesied many events prior to when they took place in history, and this provides an objectively scientific way to test it.

When scientists put physical laws to test, they want to see if results perform as predicted by a hypothesis. If they do, it establishes truth for everyone to accept. Likewise, when the Bible predicts a future event (prophecy), all may openly observe whether the prediction takes place or not. The parallel logic of this analogy should provide an acceptable approach to testing and verifying biblical authority.

Of course, there is a difference between experiments in physical science and testing Bible prophecy. The difference lies in the fact that Bible prophecies about future events are hypotheses drawn from the biblical source material by a researcher. It is the researcher's understanding that is tested as expressed in his written description of a Bible prophecy.

Humanly fallible researchers, including me, may be wrong in his or her research conclusions on how particular prophetic verses will be fulfilled. However, over the centuries a large number of scholars have demonstrated the historical fulfillment of many ancient prophecies, so the Bible's authority is already established regardless of whether my (or anyone else's) conclusions about Bible prophecy unfold as published or not.

Cancerous Tumor Analogy

Sometimes people logically ask, "Why will a loving God destroy our modern human civilization?"

Perhaps this analogy will help. If you have a cancerous tumor in your body and do not cut it out, it will kill you. If you have the tumor, then you really do not have many options if you want to live. You must treat the tumor to get rid of it one way or another.

God faced the same problem thousands of years ago when Satan rebelled and then deceived Adam and Eve. God loves us so much that He must destroy the evil cancers that infect us worldwide. Modern civilization has become like the way it was before Noah's Flood. What kind of evil so infuriates God that He sends global judgment? Read my books.

God must rid the universe of evil so that future generations of happy children can be born on a planet ruled according to His original intentions. Our civilization's destructive activities range from military oppression to greed-driven environmental manipulation. The world's increasing levels of injustice and evil will soon force God to intervene before our perverted rebellion against His ways has passed the point of no return. Something must remain alive to work with. The coming reign of Jesus is a restoration of our present planet and not a re-creation of it!

If God does not intervene in the affairs of the nations within the next 10 years, I can tell you that there will no longer be a next generation. That is my conclusion as an educated person who regularly reads a number of science magazines. The Apocalypse is the only hope for humanity, but just like a birth, it will be bloody.

The Lord of all creation planned long ago to end Satan's dominion and our present civilization. He will replace it with a totally new world order never before experienced on earth. According to Bible prophecy as corroborated by extra-biblical sources, this 7-year period is just around the corner. The World Cuckoo Clock is now set to go off!

**The Apocalypse will take place from
21 December 2008 to 21 December 2015.
Be warned. Be prepared.**

An Invitation

I invite you to learn something you always wanted to know since childhood. For the first time you will read about **"God's Plan for Humanity"** from the biblical perspective almost never preached in any church, guaranteed. Within the context of God's overall objectives, the death, pain and suffering of the Apocalypse will begin make sense, and the wise will use this understanding to prepare for the days ahead, as Daniel prophesied. (Daniel 12:10). Remember, the best preparation is spiritual! I am not in the survival supplies business!

By the way, the Second Coming of Christ and the Resurrection of the Dead cannot be dated with my methodology! The reason is that both events are initiated in Heaven, "the other side or spiritual dimension," which has no clocks or calendars to tell time. Sorry.

Throughout my books, I stress of the beautiful hope of God's promised deliverance of those who repent, serve and love Him. I mentioned that I use common-sense analogies from natural science to explain the Bible. My favorite analogy to explain the Apocalypse is childbirth. The first 6,000 years of human history is like pregnancy. The Apocalypse is

the process of birthing the child and placenta. The child is the Kingdom of God, and the placenta is the domain of Satan discarded. The childbirth analogy focuses our attention on the birth of the baby instead of the afterbirth of the placenta. That birth will take place about 10 years from the initial publication of these books in 2005.

The Apocalypse gives us a deeper understanding of human life. It reveals the plan of God for humanity in which each person must be born again. Just like a butterfly has two birthdays and two very different stages in its lifecycle – as a caterpillar and as a winged beauty, God intends that human beings and human civilization be born again. The perfect government of God will soon replace the corrupt governments of the nations. This future reality does not depend on anything that a certain number of people must believe or do to make it happen. This is the gospel of the Kingdom of God proclaimed by Jesus two thousand years ago as written in the Word of God, the Bible.

The dates for the Apocalypse are embedded within the Bible's 7,000-year plan for humanity and this material universe. By applying the same methods of research that I used to develop many hi-tech patents, I discovered a large number of interlocking proofs for these dates that defy coincidence and the laws of random chance. That is why there are two substantial books and not just a pamphlet. I would not have spent some of my best years of retirement (and a small fortune) writing and translating them into other languages if there was insufficient proof for these dramatic discoveries. The spiritual lessons learned from them will enrich anyone who reads my books.

You have not come to this booklet or to the www.apocalypse2008-2015.com Internet site (Where you can read the books for free!) by chance. You have come to the hidden treasure of the ages. Your journey in life has brought you to the ancient map that will bring you to where you can dig up this great treasure. Yes, it will take some effort to discover the answers to the truly big questions of life, but not even the most successful corporate executive has any advantage over the common laborer in this opportunity.

Only you can decide to take the time to dig God's spiritual treasures out of the Bible. My books ***Apocalypse Prophesied*** and ***Mystery of Tammuz 17*** also provide you with a pick and shovel to help make the task a little easier. They give you the tools to make your own decisions about how to live by biblical principles according to your faith. Anything I have written is only a means to this end. If you decide to skip the map or not use the tools, then you have chosen to wander in the poverty of darkness without exploring these important answers.

Although my historical research strongly indicates that God has not had to change His 7,000 year plan for human history, He can do so if He wants to. But He will only do so if there is good reason. When I mention “change” here, I intend that He could either accelerate or delay when the events already laid out in the *Heh* dimension of timeless heaven will take place in our material *Daleth* dimension of time and place. To me, the odds are much better that He will stick to His plan as it has existed from the beginning. It is unwise to try to outguess His timing: the sooner one repents and repairs his relationship with God, the better.

Remember I am not a prophet or a theologian but a retired hi-tech inventor. My books are not scholarly works but the sharing of my insights. What I found in the Hebrew Alphabet Number System could be described as the x-ray echoes of God’s original plan as revealed to the First Civilization from before the Flood in 2288 BC. God the Father can modify the timing of a prophecy’s implementation. Jesus did no miracle without it being wholly congruent with the will of the Father. Why would the Apocalypse be any different?

Sure, Jesus knows the scheduled dates. He will saddle up His horse on time, but only the Father commands when to ride!

Then I saw heaven opened, and there was a white horse! Its rider is called Faithful and True, and in righteousness He judges and makes war. His eyes are like a flame of fire, and on His head are many diadems; and He has a name inscribed that no one knows but Himself. He is clothed in a robe dipped in blood, and His name is called The Word of God.

And the armies of heaven, wearing fine linen, white and pure, were following Him on white horses. From His mouth comes a sharp sword with which to strike down the nations, and He will rule them with a rod of iron; He will tread the wine press of the fury of the wrath of God the Almighty. On His robe and on His thigh He has a name inscribed, “King of kings and Lord of lords.” (Revelation 19:11-16 NRSV)

Finally, all wars will end – religious or otherwise!

Why? Because God is about to put an end to global economic oppression, political injustice, environmental abuse and spiritual confusion! This is the good news of the Bible.

Through Jesus, human government and economic systems will be replaced worldwide by God’s Kingdom. These changes will accelerate

*the spiritual transformation of human nature into conformity with
God's incomparable love.*

Apocalypse Prophesied and **Mystery of Tammuz 17** by Herbert R. Stollorz with Christopher J. Patton are available through your local bookstore. Most should be able to order them for you if they are not in stock. Meanwhile, you may read the books online and download them one chapter at a time at www.apocalypse2008-2015.com.

Legal Disclaimer

The social, cultural, theological and spiritual commentaries represent the best efforts of the authors to express their views and perspectives on the Bible in the context of historic and prophetic time, but the information presented in these books is not intended to constitute and should not be taken as any type of financial or legal advice.

First of all, we are only human and may be wrong when it comes to the specific facts and dates that someone might use in financial speculation, for example. Our methods of researching and understanding of the biblical texts are founded on some basic assumptions that are either only discernable spiritually at this time or may turn out to be incomplete.

Secondly, we are not in a position to and do not intend to offer any type of advice about the legal and material affairs of any other person's life. That is for each of us to do responsibly for ourselves as God leads us.
